

The Great Grammar Book, a stylish, witty, and ambitious book, is ideally suited for students and professionals.

The book deftly handles all the familiar grammar problems: sentence fragments and run-on sentences, using correct pronouns, verbs, capital letters, apostrophes, and all punctuation, as well as a usage glossary to sort out confusing words such as *affect* and *effect* and *imply* and *infer*.

A Sampling of Unsolicited Comments:

Leslie Kruser, Assistant Professor, Judson University, IL

"I just wanted to let you know how well your text fit my course needs. The number of lessons was perfect. We finished the last quiz today during our final exam period. Unfortunately, I had not glanced ahead to see how rich and full the last lesson was. Next year I will do more with this last chapter, sprinkling some of the writing techniques throughout the other weeks. Congratulations on writing a concise, inexpensive book that targets common problem areas with a fun and informative approach."

Gay Mcleod, Dorchester Academy, SC

"The succinct lists of grammar rules and examples were exactly what my eighth and ninth grade students needed to review... We all love the sentences in the exercises that are up-to-date, relevant, and interesting."

John Neighbors, East Georgia College Learning Support Instructor

"I just wanted to tell you how much I am enjoying your grammar book. It is truly helping the students, and the sentences, with all the interesting facts, seem to fascinate them also. We are looking forward to using it next semester."

Barbara McLain, Cardinal Mooney High School, FL

"The order of lessons is so logical and the exercises are extensive."

Roselyn Gregor, ESL Professor, St Peter's College, NJ

"I really, really, really like this book. I will be using it with ESL students. I will be asking them to look up all the historical and cultural references you have used in your exercises--it will be a

GREAT way for them to learn about the U.S. at the same time they are learning the language. Thank you again and congratulations on writing a grammar book that 'gets it' and is actually fun."

Janice Mastropietro, middle school teacher at Villa Maria Academy, NY

"Love the book!"

Karen Peyton, PA
